Is a compound of the virtues of sarsaparil Is a compound of the virtues of sarsaparila, stillingia, mandrake, yellow dock, with
the iodide of potash and iron, all powerful
blood-making, blood-cleansing, and life-sustaining elements. It is the purest, safest,
and most effectual alterative medicine
known or available to the public. The sciences of medicine and chemistry have never
produced as valuable a remedy, nor one so potent to cure all diseases resulting from impure blood. It cures Scrofula and impure blood. It cures Scrofula and all scrofulous diseases, Erysipelas, Rose, or St. Anthony's Fire, Pimples and Face-grubs, Pustules, Blotches, Boils, Tumors, Tetter, Humors, Sait Rheum, Scald-head, Ring-worm, Ulcers, Sores, Rheumatism, Mercurial Disease, Neuralgia, Female Weaknesses and Irregularities, Jaundice, Affections of the Liver, Dyspepsia, Emaciation, and General Debility. By its searching and cleansing qualities it purges out the foul corruptions which contaminate the blood and cause derangement and decay. It stimulates and enlivens

the vital functions, promotes energy and strength, restores and preserves health, and infuses new life and vigor throughout the whole system. No sufferer from any disease which arises from impurity of the blood need despair who will give AVER'S SARSAPARILLA a fair trial. It is folly to experiment with the numer-

ous low-priced mixtures, of cheap materials, and without medicinal virtues, offered as blood-purifiers, while disease becomes more firmly seated. AYER'S SARSAPARILLA IS & medicine of such concentrated curative power, that it is by far the best, cheapest, and most reliable blood-purifier known. Physicians know its composition, and pre-scribe it. It has been widely used for forty years, and has won the unqualified confi-dence of millions whom it has benefited.
